With several years of investment experience, my wife and I have decided to emigrate to Sydney under Business Innovation and Investment program (188B). After searching for a reliable and professional registered Australia immigration consultant, we finally selected the international award winning John Hu Migration Consulting to process my visa.

John and his team have helped us complete all application forms and collate all supporting documents and information for our Business Innovation and Investment visa. Finally, all my family members and I have been granted with our visas.

I have enjoyed my experience with John Hu Migration Consulting and have no hesitation to recommend anyone to engage their professional immigration services to process his / her migration visa to Australia.
