

18 October 2017

To whom it may concern,

I have been working as a Software Engineer in Hong Kong. I have decided to live and work permanently in Australia with my partner by applying my subclass 189 Skilled Independent visa.

I understand that the application process is rather tedious as it involves skills assessment, English tests, Expression of Interest (EOI), health and police checks, and visa application. Therefore, I decided to engage a professional registered Australian immigration consultant to process my visa and finally selected John Hu of John Hu Migration Consulting (MARN 0746141) to process my subclass 189 visa.

John and his consulting team have guided me through every step in collating my documents, completing my Australian Computer Society skills assessment and all the necessary processes in my visa application. I have enjoyed my customer experience with John Hu Migration Consulting throughout the entire application process.

Finally, I got my subclass 189 visa granted on 5 September 2017.

I would recommend the professional immigration services of John Hu Migration Consulting to anyone who decides to immigrate to Australia for their professionalism and customer empathy.

A handwritten signature in cursive script that reads "Cam".
